

Year Entered Program	Graduation Rate	National Exam Pass Rate	Licensure Rate
2005 - 2006	50.00%	0.00%	0.00%
2006 - 2007	87.50%	0.00%	0.00%
2007 - 2008	50.00%	0.00%	0.00%
2008 - 2009	50.00%	0.00%	0.00%
2009 - 2010	86.67%	0.00%	0.00%
2010 - 2011	80.00%	0.00%	0.00%
2011 - 2012	100.00%	100.00%	5.26%
2012 - 2013	81.25%	0.00%	0.00%
2013 - 2014	0.00%	0.00%	0.00%

Year Entered Program	Contextual Information
2005 - 2006	As a PDI most of our student do not take the national LMFT exam as they practice under the license relevant to their graduate degree (LCSW or LPC). Our high attrition rates historically have been due to students finishing the classes, but not completing our 250 onsite session requirement. additionally, many students drop out the 2nd year as we are not a title 4 eligible school (so they can't afford tuition once they have to start paying back their student loans for their graduate degree). As our numbers suggest we have addressed this.

2009 - 2010	As a PDI most of our student do not take the national LMFT exam as they practice under the license relevant to their graduate degree (LCSW or LPC). Our high attrition rates historically have been due to students finishing the classes, but not completing our 250 onsite session requirement. additionally, many students drop out the 2nd year as we are not a title 4 eligible school (so they can't afford tuition once they have to start paying back their student loans for their graduate degree). As our numbers suggest we have addressed this.
2010 - 2011	Graduation rates increased due to the work of the Dean of Students- a position that was put into place 1 year prior to this graduation, who helped students reach graduation
2011 - 2012	Our program has improved exponentially with our Competency based system--our graduation rate in this class reflects that. We expect to see similar numbers in each future class.
2012 - 2013	Our program has improved exponentially with our Competency based system--our graduation rate in this class reflects that. We expect to see similar numbers in each future class.
2013 - 2014	These students will Graduate in 2015, we expect to have at least 80% graduate by 2015.
